# Course VISION

**VIPP** is the acronym for **V**enous **I**nsufficiency **P**ersonal & **P**ractical and in its «**PERSONAL**» feature is possible to identify the key benefit provided to the attendees: a **top quality evidence-based educational experience**, tailored to the **personal practical needs** of the participant. Different modules are available and designed on the specific course audience. On Mar 27-29, 2026, VIPP will customize its content offering a unique opportunity of venous evidence-based & hands-on education. In this module, the attendees enjoy lectures and in-depth analysis of the scientific literature everybody should know in **Ultrasound scanning, Endovenous treatments, Sclerotherapy** and **Venous Active Drugs**. Practical **workshops** enhance the **hands-on** experience of the participants, with a maximization during **live cases**, in which every attendee has the chance to join the operating room. The international audience provide a **professional** and **personal great networking chance**. Not by coincidence, the Directors of this course come from **Europe** and **North America**. Not by coincidence the course is hosted during the **Fourth International Ram City Vascular Surgery Symposium**, a top quality event offering a unique opportunity of exploring synergy with China and the World. Moreover, **Everybody** is invited to share knowledge by showcasing personal free communications, in the typical “**one teach one**” vision of v-WIN foundation. Last but not least, the event is part of the road to Dubai December 17-19, 2026 **Le.G.athering World Congress**, offering significant chances of multi-specialty interaction <https://vwinfoundation.com/legathering/>

## PROGRAM:

### Friday, March 27, 2026

15.00-18.00 **Venous Ultrasound School + Radiofrequency/Glue Operating Room**

### Saturday, March 28, 2026

08.00-18.00 **The Fourth International Ram City Vascular Surgery Symposium**

### Sunday, March 29, 2026

08.00 - 09.00 **DIAGNOSTICS**

08.00-08.10 **Venous Insufficiency Clinical & Hemodynamics considerations** (Gianesini S)

08.20-08.30 **Pre-operative ultrasound mapping**(Gianesini S)

08.40-08.50 **Venous thrombosis diagnostic work-up**(Chi YW)

09.00-10.00 **SUPERFICIAL ENDOVENOUS TECHNIQUES**

09.00-09.10 **TT-NTNT: technical notes** (Wang J)

09.20-09.30 **TT- NTNT indications & evidence** (Gianesini S)
